Data Accuracy

mobilePLUS Mobile Data Capture Solutions

Capture the Data You Need – For the Decisions You Need to Make

The mobilePLUS Solution

PREPARE

Organize what you're looking to find & track

COLLECT

We'll communicate & automate the tracking & info capture activities

USE

Then we'll hand the results back for reports, planning whatever you need.

Solution Sample

THE CLIENT:

- A large university with multiple locations
- Conducts annual audits of fixed assets for their ERP

THE CHALLENGES:

- Sought to upgrade legacy system to a newer solution
- Needed increased functionality & tighter integration with ERP
- Needed all assets in a single cost center & single inventory file
- Had strict security guidelines for applications and mobile devices

THE mobilePLUS SOLUTION:

- Enabled use of existing tools in their ERP for creating, tracking and reconciling of mobile audits
- Additional filters track earlier inventory work completed & easily identifies items still needing to be counted
- Easy integration with the ERP and network environment - and met security requirements

THE RESULTS:

- Accomplished the goal of an easier approach to conducting inventories - quickly & with fewer resources
- Issues found during inventory are identified earlier in the process – providing more time to resolve
- The entire implementation was accomplished remotely – saving the university time and money

The Power of the Scan

Accurate, Fast & Easy

5-40x Faster than Manual Data Entry

10,000x More Accurate

No line of sight?

No problem. RFID Available

RFID finds the tag for you.

mobilePLUS offers a packaged mobile item inventory capability for your tracking needs. This solution meets the challenge organizations face when trying to effectively conduct mobile audits for financial, compliance, readiness or other purposes.

Combined with industry leading mobile hardware and RFID technologies, **mobilePLUS** extends the reach of your business systems to quickly and accurately manage items of value.

Core Features & Values:

100% Available - Conduct your work where an item is located without needing a network connection

End to End Capability - Provide users with the tools they need to complete their tasks-all from their mobile device

Configurable – Easy to configure to tailor to your business

Leverage Your Investments – Works with most existing mobile devices and business systems

Packaged Solution – Comprehensive package for quick installation, user prep & use – and rapid ROI
