

# Free Pilot Program

Take your Business Asset tracking to  
the next level

**mobile+**  
for Workday®

## Give mobilePLUS a Test Drive

You can research options, explore product functionality and sit through demos. But it still [can be hard to envision how a solution may work](#) in your environment.

[Let us show you.](#)

This Pilot Program was designed for you to give mobilePLUS for Workday [a solid Test Drive - in-house.](#)

The mobilePLUS for Workday Pilot Program provides you with the mobilePLUS software, ramp-up services and expertise. You provide mobile devices, asset tags, your Workday Tenant, and 60 days.

Together, we'll show you how mobilePLUS can [expand the benefits of your Workday investment - and take your business asset tracking to the next level.](#)

## Objectives

- Provide a functional understanding of mobilePLUS with a production-capable solution
- Enable your team to easily tailor the application to your business assets use case
- Demonstrate the ease of use for administrators and users
- Establish a project approach for full deployment and support – with minimal investment and time
- Generate results and asset data to assist in a cost/benefit analysis of the solution
- Showcase the limited need for IT or Workday resources to implement and sustain the mobilePLUS
- Engage the Pilot Program components, including training, consulting services & support

**mobile+**  
for Workday®

## PILOT PROGRAM
